MHCare Medical is a fully licensed Medical Device and **ISO 13485:2016** certified supply company proudly based out of Edmonton, AB, Canada. We pride ourselves in being one of the largest personal protective medical equipment Suppliers in North America.

We specialize in high-quality personal protective medical equipment which aligns with our mission to protect our end-users from harmful substances and infectious diseases!

MHCare Medical leads the Medical PPE industry with our impeccable responsiveness and turnaround time to meet customer demands.

- Consistent inventory levels
- Quick turnaround time
- Dependable delivery
- A long-term approach to customer relations
- Knowledgeable staff
- Quality products

MHCare Medical is about commitment. Commitment to our people, our customers, our vendors, our communities, and our business.

Our manufacturers and products are accredited with ISO 13485: 2016 (standard of Medical Devices), CE certified and follow the FDA and Health Canada guidelines.

LIST OF PRODUCTS

Medical Face Mask Level 1 ($\geq 95\%$), Level 2 ($\geq 98\%$) and Level 3 ($\geq 98\%$):

Product Code:

Level 1: PM4709027

Level 2: PM4709028

Level 3: PM4709029

3-ply, disposable, medical face mask to protect the user from pathogens that may spread by blood or other body fluids. Filters over 95% of airborne particles, fumes, and odors. Keep people stay healthy and safe when at work or out by protecting your airways from pollutants and allergens to help you breathe easier as much as possible. This face mask features an adjustable nose wire to ensure a perfect fit and comfortable elastic ear loop.

Non-Medical Face Mask ($\geq 90\%$)

Product Code: DFM470927

3-ply, disposable, everyday mask that offers protection from viruses, fog, smog, dust, smells, vehicle exhaust, air pollution, allergens, and humidity. Adjustable nose wire to ensure a perfect fit and comfortable elastic ear loop.

Children Face Mask Level 1 ($\geq 95\%$)

Product Code: CFM210720

3 -ply Disposable Child Face Mask, perfect for ages 4 to 12. Breathable material and cute patterns, which makes it useful and non- irritating, soft and comfortable. These masks have a 95% bacterial filtration efficiency, adjustable nose piece for a comfortable, secure fit, and elastic ear loop, allowing easy placement on the face. Suitable for daily use.

N95 Particulate Respirator NIOSH Approved

Product Code: N95M0420

The Particulate Respirator DE2322 is designed to help provide respiratory protection for the user. This product has a filter efficiency of 95% or greater against solid and liquid aerosols free of oil. This product contains no components made from natural rubber latex.

Medical Face Shield:

Product Code: MFS223202

Double side clear anti-fog PET face shield with foam headrest. Excellent protection against potential contamination from blood pathogens, body fluids, or harmful chemical splash. Hypoallergenic foam band can absorb sweat and provide enough room for eyeglasses or safety goggles.

Goggles (Protective eye shield):

Product Code: GO9049S1

These anti-fog goggles are made to protect the wearer from dust, germs, harmful chemicals, liquids, and more. These goggles embrace a flexible design which helps the eyewear conform to all facial contours. Very light, complete eye protection. Compressed yet relaxed fit over eyeglasses and other eyewear.

Non-Medical Isolation gowns:

Product Code: NMIG69988

Breathable polypropylene material provides a lightweight protective barrier against dust and grime. Full back coverage with back and neck ties. Widely used in factories, salons, laboratories, and other public or private settings.

Isolation Gown-Level 1 (Polypropylene):

Product Code: IG69988

These gowns are breathable, elastic dust-proof isolation overalls. Long-sleeve to ensure comfortable all-day use. Easy to put on and take off. Reliable protection ensured with full body coverage, providing a barrier for transmission of microorganisms and other harmful substances. The gown is a two-way isolation that prevents both medical personnel from being infected or contaminated and prevents the patient from being infected.

Isolation Gown Level 2 SMS (Non-Sterile):

Product Code: TIG699881

These gowns are breathable, elastic dust-proof isolation overalls. Long-sleeve to ensure comfortable all-day use. Easy to put on and take off. Reliable protection ensured with full body coverage, providing a barrier for transmission of microorganisms and other harmful substances. The gown is a two-way isolation that prevents both medical personnel from being infected or contaminated and prevents the patient from being infected.

Surgical Gown (Level 2, Sterile)

Product Code: ISG010

Breathable, elastic dust-proof and sterile Isolation gowns. Easy to put on and take off. Reliable protection ensured with full body coverage, providing a barrier for transmission of microorganisms and other harmful substances.

Isolation Gown Level 4 (Surgical):

Product Code: ISG4010

Highest Fluid and Microbial Barrier protection against blood -borne pathogens in critical zones. The surgical gown is intended to be worn by operating room personal during surgical procedures to protect both the surgical patient and the operating room personal from transfer of microorganisms, body fluids and particulate materials.

Chemotherapy Gowns:

Product Code: CHEG011

Our chemotherapy gowns are engineered to provide users with protection from the potential hazards associated with handling chemotherapy agents. The material in these gowns has been tested against the 12 chemotherapy drugs as per ASTM F739-12 and no permeation or breakthrough was observed during test duration of 480 minutes.

Bouffant Caps:

Product Code:

21" MSC24790

24" MSC15090

These polypropylene (PP) disposable head coverings are water resistant and eco-friendly. They come with a durable exterior to ensure your safety and protection in various situations. Thick and durable layer sustains material for multipurpose use in low fluid contamination environment. Protect yourself at home, workplace, and any other setting while wearing these water resistant, durable disposable bouffant head caps. These caps are great for all medical, workplace, indoor, and outdoor settings. Used in cleanrooms, health care professions, food services, and other settings to contain loose hair.

Protective Shoe covers:

Product Codes:

Large: SC65400L

XL:SC65500XL

Extra thick and waterproof resistant design will ensure a safe and comfortable all-day wear. Protect your home, workplace, and any other setting while wearing these non-slip, durable foot, and shoe coverings. These shoe covers are disposable and slip resistant. Waterproof design helps to protect your shoes from liquid and dust. These coverings are great for all medical, workplace, indoor, and outdoor settings. These covers contain an elastic band for flexibility.

KN95 Non-Medical (≥95%):

Product Code: KN95M0320

Built-in nose bridge, non-medical masks to provide adequate level of protection from viruses, fog, smog, dust, smells, vehicle exhaust, air pollution, allergens, and humidity. Ample space between face and mask to provide optimal breathability. This face mask features an adjustable nose piece and comfortable elastic ear loop; extra-soft ear loops eliminate pressure to the ears. Inner layer is made of soft facial tissue, no dye, gentle to the skin.

Infrared Non-Contact Forehead Thermometer:

Product Code: THE0326202

Medical Grade Instant Digital Thermometer for kids, infants and adults in 1 SECOND, faster than conventional thermometers. Measures the body temperature based on the infrared energy emitted from the forehead as well as objects and rooms. Users can quickly get measurement results after positioning properly the temperature probe at forehead. Temperature will be displayed on the LCD and the LCD screen with clinically proven accuracy you can rely on. The back LCD display showing you what the temperature is, even easily readable in the dark.

Vinyl Disposable Gloves (Medical) :

Product Code:

Small: MVG650920S

Medium: MVG750920M

Large: MVG850920L

X-Large: MVG950920XL

VINYL POWDER FREE and include long-lasting strength and durability with excellent dexterity for multiple use applications. Vinyl gloves are a cost-effective, latex-free alternative well suited to the majority of clinical applications. Ideal for people with allergies and for virus and germ protection. Can be used at home, kitchen, workshop, salon, cleaning purposes, public places and more.

Vinyl Disposable Gloves (Non Medical) :

Product Code:

Small: MVG650920S

Medium: MVG750920M

Large: MVG850920L

X-Large: MVG950920XL

VINYL POWDER FREE and include long-lasting strength and durability with excellent dexterity for multiple use applications. Vinyl gloves are a cost-effective, latex-free alternative well suited to the majority of clinical applications. Ideal for people with allergies and for virus and germ protection. Can be used at home, kitchen, workshop, salon, cleaning purposes, public places and more.

Nitrile Disposable Gloves 9" (Non Medical):

Product Code:

Small: NMNG6

Medium: NMNG7

Large: NMNG8

X-Large: NMNG9

These disposable gloves are **NITRILE POWDER FREE** and include long-lasting strength and durability with excellent dexterity for multiple use applications. These gloves can be worn in many different settings and offer similar protection to heavier duty gloves while offering great comfort and sensitivity. These disposable gloves are exceptionally useful for when frequent glove changing is required, especially for serving food and other sanitation applications. Gloves will keep hands protected and fight against spread of germs, diseases, and viruses. Grip remains in wet and dry settings.

Nitrile Disposable Gloves 9" (Medical) :

Product Code:

Small: MNG09INS

Medium: MNG09INM

Large: MNG09INL

X-Large: MNG09INXL

Medical gloves are disposable gloves used during medical examinations and procedures to help prevent cross-contamination between Healthcare workers and patients. Ultimate protection against pathogens and chemical solvents. Ambidextrous with a textured finish for an easy grip & less hand fatigue.

Nitrile Powder free Disposable Gloves (Medical) 12" Extended cuff:

Product Code:

X-small: MNG12IN0710XS

Small: MNG12IN0720S

Medium: MNG12IN0730M

Large: MNG12IN0740L

X-Large: MNG12IN0750XL

Medical gloves are disposable gloves used during medical examinations and procedures to help prevent cross-contamination between Healthcare workers and patients. Ultimate protection against pathogens and chemical solvents. Ambidextrous with a textured finish for an easy grip & less hand fatigue.

Hand Sanitizer Rinse Free:

Natural Product Number (NPN) : 80098576

Product Code:

500mL: HS500BYD

50mL: HS50BYD

Conforms to WHO standards for hand sanitizer killing 99.9% of germs and bacteria. Leaves hands soft. Moisturizing with skin care. Quick drying without leaving the skin greasy or sticky.

Reusable Isolation Gown Level 1,2,3

Product Code:

Level 1: REG01001

Level 2: REG02001

Level 3: REG03001

These reusable gowns are designed with a densely woven fabric made from a non-linting continuous filament polyester to provide excellent fluid resistance and protection to clinicians when dealing with patients. The reusable Isolation Gowns provides improved comfort, and a long-term economic benefit as compared to other disposable gowns. Not intended for use during surgical procedures, or when there is a medium or high risk of contamination.

Personal Protective Equipment (PPE) Isolation Door Caddy

Custom designed pockets to store and dispense PPE. It has 3 pockets at the top for masks, 2 for gowns and 4 glove pockets. Made of flame retardant nylon. The PPE Door Caddy can be wiped clean with surface disinfectants. The PPE Door Caddy hangs over the door with supplied metal hangers. Made of flame-retardant Nylon. Conveniently holds gloves, masks, gowns, medical waste bags, hand sanitizers and other items on the door of patient room. Dimensions are customizable at customer request

75% Alcohol Disinfectant Wipes

Natural Product Number (NPN): 80102859

Product Code: AW75P0050

Antibacterial and Antiviral action. Effective in destroying (harmful) bacteria to provide antiseptic cleansing.

½ Drape sheet

Modular drape sheets are effective add-ons to other drapes to help create a sterile field and complete your procedural draping needs

Versatile sheets are available in half- and large-size sheets, and as utility sheets for use in a variety of procedures

¾ Drape Sheet

Product Code: SDP01930ST

The Drape Sheet is 52 in x 76 in (132 cm x 193 cm) and is made with absorbent prevention fabric. To help prevent surgical site infection, it is critical to reduce and restrict microorganisms from entering the open surgical wound. These Drapes provide a sterile surface to the wound edge at the start of surgery and continuous antimicrobial activity throughout the procedure.

Drape Image Intensifier (C-arm)

Product Code: SDP10130ST

One-piece C-arm Drape is a sterile polyethylene drape with adhesive strips. The one-piece design completely covers the C-arm. The Drape Image Intensifier (C-arm) is a large polyethylene bag with four adhesive tabs. The drape is used during surgical procedures to cover the part of the C-arm that will be over the sterile field. Specially designed to fit equipment to help reduce draping time.

Drape Surgical Under Buttocks with Pouch

Product Code: SDP01300ST

Under Buttocks Drape is resistant to strikethrough. It features fluid collection pouch, filtering screen, drainage port and absorbent prevention fabric.

Femoral Angiography Drape w/ Expanded Reinforcement

Resistant to Strikethrough

Reliable, secure adhesive

203 cm x 342 cm Femoral Angiography Drape, absorbent prevention fabric, extra absorbent area, 2 adhesive patches with oval apertures, transparent side and end panels.

two sides of the Angio drape are see through plastic.

Fluid pouch

Reduces clean-up and costs with polyethylene film, which helps create a resistant to fluid strikethrough layer, at the sterile field, to help prevent fluid strikethrough and fluid leakage from pouch

Pouch contains fluids to help keep patient and bed dry and minimize exposure of healthcare personnel to potentially infectious blood and body fluids

Filter screen catches bone chips and tissue for specimen collection, as well as sponges and instruments to help prevent floor and instrument contamination

Exit port allows for continuous suction from pouch to handle larger amounts of fluid

Laparoscopy Drape with Incise Film

Product Code: SDP01710ST

Absorbent throughout entire drape,

Resistant to strikethrough

Reliable, dependable adhesive

Laparotomy/Laparoscopy Drapes is 77 inch by 122 inch (196 centimetre by 310 centimetre). It includes a laparotomy drape, absorbent prevention fabric, rectangular aperture, arm extension. Its arm extension is 98 in (250 cm) and its aperture is 4 in by 12 in (10 cm x 30 cm).

Leggings, Folded, 6-inch Cuff

These leggings, folded 6-inch Cuff provides effective fluid collection with easy clean-up and disposal, while reducing the risk of staff and patient contact with blood and body fluids.

Split Drape Sheet with Absorbent Reinforcement

Sterile convertors split sheet drape measures 305 cm x 196 cm. With absorbent reinforcement and split adhesive.

Reliable adhesive strip stays secure throughout the procedure

Meets flammability class 1 (CFR Title 16 Part 1610)

Several sizes of split sheets and splits available for different types of surgery.

Standard Back Table cover

Impervious to Strikethrough

Fluid Control Features

Meets flammability class 1 (CFR Title 16 Part 1610).
